

THE JOINT STAFF  
WASHINGTON, DC  
WASHINGTON OPERATIONS

IN REPLY  
REFER TO

Interoperability Test Panel, Chairman

10 February 2004

MEMORANDUM FOR ESC/DIVG, COMMANDER, 932RD AIR CONTROL  
SQUADRON, ATTN: COLONEL REMBER

SUBJECT: Interim Certificate to Operate (ICTO) for the Iceland Air  
Defense System (IADS) Version 9.0

Reference: CJCSI 6212.01B, Interoperability and Supportability of  
National Security Systems and Information Technology  
Systems

1. In accordance with the authority provided by the reference, the Interoperability Test Panel (ITP) concurs with your request for an Interim Certificate to Operate (ICTO) for the Iceland Air Defense System (IADS) Version 9.0. The ITP bases the concurrence of this ICTO on your identified urgent operational requirement to field this system.
2. The ITP Chairman concurs with the recommendations of the Joint Interoperability Test Command (JITC) and the ITP members to grant an ICTO for use of IADS Version 9.0 while the Joint Interoperability Test Command is completing interoperability certification testing. This ICTO is effective beginning 23 January 2004 and expires on 30 May 2004. To further extend this ICTO, the Air Force must provide a systems status update to the ITP in May 2004.
3. The ITP modified this ICTO at the 23 January 2004 ITP meeting and granted an extension through 30 May 2004 because system problems delayed completion of the interoperability certification test.
4. If, at the end of this ICTO, IADS Version 9.0 has not been interoperability certified or the ITP has not granted an ICTO extension, the ITP will consider it as a candidate for removal from operational use.
5. The JITC point of contact is Mr. Joe Peeples, DSN 354-2802, Commercial (301) 744-2802, fax (301) 744-2688, or email: [peeplesj@ncr.disa.mil](mailto:peeplesj@ncr.disa.mil).

WILLIAM J. MORROW, JR.  
Lt Col, USAF  
Acting Chairman, ITP
